If you're looking for a great place to 'chill out' at any time of the year then look no further. The Beach House is a family run B & B that offers SO much more than you'd usually find. Right from the start of our mini-break owner Susan Marks and her fabulous staff only seemed concerned with making our stay memorable. Our room was as warm as the welcome, boasting everything you'd need to service your every need after a long and tiring walk around East Head spit; which is a National Trust owned area of outstanding coastal beauty adjacent to West Wittering Beach itself.

It is at meal times, however, that the Beach House really comes into its own. The menu is stupendously varied and we were even introduced to 'magician' Chef John who masterminds the kitchen. My favourite was the locally caught fish and chips! Not sure where the chips were caught. The drinks are served perfectly (they even offer a local bitter – right up my street!) and we were particularly impressed with the house Merlot – great value and great taste. The waitresses who looked after us both at evening meals and breakfast were cheerful, happy, bright, bubbly and great fun. They certainly enhanced our experience.

We cannot enthuse about The Beach House enough. It is perfect for short week-ends away and instantly transports us to another world. Mind you, we live the furthest one can from the sea – so I suppose we would be impressed with the location of West Wittering!!!!

Susan Marks is a font of local knowledge and having travelled the world for as long as she seems to have done before settling to be 'mien hostess' I felt she knew a thing or two about having a great holiday!

**“Fantastic place to stay!”**

Just spent a fabulous weekend here. Food superb, room clean and spacious and staff very friendly and welcoming. Close to beach and wonderful walks along side of Chichester harbour and views to Solent and Isle of Wight. Cant wait for my next visit!
